THIRD QUARTER 2023 RESULTS AND KEY METRICS

RETURNED \$1.5 BILLION IN THE FORM OF DIVIDENDS AND REPURCHASES

PAYOUT RATIO OF 48%(3)

BOOK VALUE PER SHARE OF \$99.28

TANGIBLE BOOK VALUE PER SHARE OF \$86.90⁽⁴⁾

New York, October 13, 2023 – Citigroup Inc. today reported net income for the third quarter 2023 of \$3.5 billion, or \$1.63 per diluted share, on revenues of \$20.1 billion. This compares to net income of \$3.5 billion, or \$1.63 per diluted share, on revenues of \$18.5 billion for the third quarter 2022.

Revenues increased 9% from the prior-year period, largely driven by strength across *Services* and *Markets* in *Institutional Clients Group (ICG)* and *US Personal Banking* within *Personal Banking and Wealth Management (PBWM)*, as well as modest growth in *Banking* in *ICG*. This increase was partially offset by a revenue reduction from the closed exits and wind-downs within *Legacy Franchises*.

Third quarter results included divestiture-related impacts of \$299 million⁽⁵⁾ in earnings before taxes (\$214 million after-tax), primarily driven by a gain on the sale of the Taiwan consumer business, recorded in *Legacy Franchises*. Excluding these divestiture-related impacts, earnings per share was \$1.52⁽⁵⁾. This compares to divestiture-related impacts in the third quarter 2022 of \$519 million⁽⁵⁾ in earnings before taxes (\$256 million after-tax), also recorded in *Legacy Franchises*, and earnings per share of \$1.50, excluding divestiture-related impacts⁽⁵⁾.

Net income of \$3.5 billion increased 2% from the prior-year period. Excluding divestiture-related impacts⁽⁵⁾, net income increased 3%. The increase in net income was primarily driven by the higher revenue, partially offset by higher expenses and higher cost of credit.

CEO COMMENTARY

Citi CEO Jane Fraser said, "Despite the headwinds, our five core, interconnected businesses each posted revenue growth resulting in overall growth of 9%. Services, our fastest growing business, grew by 13% with Treasury and Trade Solutions having its best quarter in a decade. Markets was up 10% driven by strength in Fixed Income. Banking activity played to our mix and grew 17%, bolstered by a rebound in debt issuance and some signs of life in the equity capital markets. U.S. Personal Banking also had double-digit revenue growth while a continued deceleration in spending indicates an increasingly cautious consumer. And Wealth revenues grew as the business continues to win new mandates and acquire new clients.

"Our CET1 ratio grew to 13.5% which is \$14 billion above our current regulatory minimum after returning \$1.5 billion to our shareholders through common dividends and share repurchases. Our discipline of growing operating deposits has enabled us to maintain a stable deposit base. Taken with our highquality asset portfolio, strong reserve levels, ample liquidity and diversified earnings base, we are proving to our clients that we truly are a bank for all seasons.

"Last month we announced consequential changes that align our organizational structure with our strategy and changes how we run the bank. When completed, we will have a simpler firm that can operate faster, better serve our clients and unlock value for our shareholders," Ms. Fraser concluded. Percentage comparisons throughout this press release are calculated for the third quarter 2023 versus the third quarter 2022, unless otherwise specified.

<u>Citigroup</u>

Citigroup revenues of \$20.1 billion in the third quarter 2023 increased 9%. The higher revenues reflected strength across Services, US Personal Banking and Markets, as well as modest growth in Banking, which was offset by the revenue reduction from the closed exits and wind-downs.

Citigroup operating expenses of \$13.5 billion in the third quarter 2023 increased 6%, largely driven by investments in risk and controls, severance and the impact of inflation. The expense increase was partially offset by productivity savings and expense reductions from the closed exits and wind-downs.

Citigroup cost of credit was approximately \$1.8 billion in the third quarter 2023, compared to \$1.4 billion in the prior-year period, primarily driven by the continued normalization in net credit losses and volume growth in cards in *PBWM*. A net build in the allowance for credit losses (ACL) for loans and unfunded commitments of \$125 million was primarily driven by *Branded Cards* and *Retail Services*, largely related to growth in card balances.

Citigroup net income of \$3.5 billion in the third quarter 2023 increased 2% from the prior-year period, primarily driven by the higher revenues, partially offset by the higher expenses and the higher cost of credit. Citigroup's effective tax rate increased to approximately 25% in the current quarter versus 20% in the third quarter 2022, primarily driven by a different geographic mix of pre-tax earnings in the current quarter.

Citigroup's total allowance for credit losses on loans was approximately \$17.6 billion at quarter end, compared to \$16.3 billion at the end of the prior-year period, with a reserve-to-funded loans ratio of 2.68%, compared to 2.54% at the end of the prior-year period. Total non-accrual loans increased 14% from the prior-year period to \$3.3 billion. Corporate non-accrual loans increased 33% to \$2.0 billion. Consumer non-accrual loans decreased (7)% to \$1.3 billion.

Citigroup's end-of-period loans were \$666 billion at quarter end, up 3% versus the prior-year period, largely reflecting growth in US Personal Banking.

Citigroup's end-of-period deposits were approximately \$1.3 trillion at quarter end, down (3)% versus the prior-year period. The decline in deposits was largely due to a reduction in *Services*, reflecting quantitative tightening, a shift of deposits to higher-yielding investments in *Global Wealth Management* and a reduction of institutional certificates of deposit in *Corporate/Other*.

Citigroup's book value per share of \$99.28 and tangible book value per share of \$86.90 at quarter end increased 7% and 8%, respectively, versus the prior-year period. The increases were largely driven by net income to common, common share repurchases, and beneficial movements in the accumulated other comprehensive income (AOCI) component of equity, partially offset by payment of common dividends. At quarter end, Citigroup's CET1 Capital ratio was 13.5% versus 13.4% in the prior quarter, as net income to common, a benefit from the Taiwan consumer exit and a lower deferred tax assets deduction were partially offset by the impacts of growth in risk-weighted assets, common dividends and share repurchases. Citigroup's Supplementary Leverage ratio for the third quarter 2023 was 6.0%, which was largely unchanged from the prior quarter. During the quarter, Citigroup returned a total of \$1.5 billion to common shareholders in the form of dividends and repurchases.

Institutional Clients Group

ICG revenues of \$10.6 billion were up 12% (including gain/(loss) on loan hedges⁽⁶⁾), driven by growth across *Services*, *Markets* and *Banking*, partially offset by an approximately \$180 million impact from a currency devaluation in Argentina on Citi's net investment in the country.

Services revenues of \$4.7 billion increased 13%. TTS revenues of \$3.6 billion increased 12%, driven by 17% growth in net interest income, as well as 1% growth in non-interest revenue. The increase in net interest income was primarily driven by higher interest rates and deposit volume growth. The increase in non-interest revenue was driven by continued growth in underlying drivers, largely offset by the impact from the currency devaluation in Argentina on our net investment in the country. Securities Services revenues of \$1.1 billion increased 16%, driven by higher net interest income across currencies.

Markets revenues of \$4.5 billion increased 10%, driven by *Fixed Income*. *Fixed Income* revenues of \$3.6 billion increased 14%, largely driven by strength in rates and currencies. *Equity* revenues of \$918 million were down (3)%, driven by a decline in equity derivatives, partially offset by growth in cash and prime.

Banking revenues of \$1.4 billion increased 18%, including gain/(loss) on loan hedges in the current quarter and the prior-year period. Excluding gain/(loss) on loan hedges⁽⁶⁾, *Banking* revenues of \$1.5 billion increased 17%, driven by higher revenues in *Investment Banking*. *Investment Banking* revenues of \$844 million increased 34%, reflecting increased client activity in debt underwriting and the absence of realized and unrealized losses. Excluding the impact of these marks⁽⁷⁾, *Investment Banking* revenues increased 12% versus the prior-year period. Excluding gain/(loss) on loan hedges⁽⁶⁾, *Corporate Lending* revenues were up 1% versus the prior-year period.

ICG operating expenses of \$7.2 billion increased 10%, primarily driven by continued investments in risk and controls, volume related expenses, partially offset by productivity savings.

ICG cost of credit of \$196 million, compared to \$86 million in the prior-year period, included net credit losses of \$51 million, an ACL build for loans and unfunded commitments of \$61 million and other provisions of \$84 million.

ICG net income of \$2.4 billion increased 12%, driven by the higher revenues, partially offset by the higher expenses and the higher cost of credit.

Personal Banking and Wealth Management

PBWM revenues of \$6.8 billion increased 10%, driven by growth in net interest income, reflecting strong loan growth in US Personal Banking, as well as higher non-interest revenue, primarily due to lower partner payments in *Retail Services* and higher investment product revenues in *Global Wealth Management*.

US Personal Banking revenues of \$4.9 billion increased 13%. *Branded Cards* revenues of \$2.5 billion increased 12%, primarily driven by the higher net interest income, reflecting the strong loan growth. *Retail Services* revenues of \$1.7 billion increased 21%, primarily driven by the higher net interest income from loan growth, as well as the lower partner payments. *Retail Banking* revenues of \$624 million decreased (3)%, largely driven by the transfer of relationships and the associated deposits to *Global Wealth Management*, partially offset by the strength in deposit spreads.

Global Wealth Management revenues of \$1.9 billion increased 2%, largely driven by the transfer of relationships from Retail Banking, higher investment fees and higher lending revenue.

PBWM operating expenses of \$4.3 billion increased 5%, largely driven by investments in risk and controls and severance, partially offset by productivity savings.

PBWM cost of credit was \$1.5 billion, compared to \$1.1 billion in the prior-year period. The increase was largely driven by higher net credit losses of \$1.4 billion, reflecting continued normalization in Branded Cards and Retail Services.

PBWM net income of \$803 million increased 1%, driven by the higher revenue, largely offset by the higher cost of credit and the higher expenses.

Legacy Franchises

Legacy Franchises revenues of \$2.2 billion decreased (13)%, largely driven by the difference in one-time gain on sale impacts in the Asia consumer businesses and reductions from closed exits and wind-downs, partially offset by higher revenues in Mexico, reflecting Mexico peso appreciation, higher interest rates and volume growth.

Legacy Franchises expenses of \$1.8 billion decreased (3)%, primarily driven by the closed exits and wind-downs, partially offset by separation costs in Mexico and the Mexican peso appreciation.

Legacy Franchises cost of credit was \$188 million, compared to \$167 million in the prior-year period, reflecting net credit losses of \$219 million, partially offset by a net ACL release for loans and unfunded commitments.

Legacy Franchises net income was \$125 million, compared to \$316 million in the prior-year period, primarily reflecting the lower revenues and the higher cost of credit, partially offset by the lower expenses.

Certain statements in this release are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These statements are based on management's current expectations and are subject to uncertainty and changes in circumstances. These statements are not guarantees of future results or occurrences. Actual results and capital and other financial condition may differ materially from those included in these statements due to a variety of factors. These factors include, among others: Citi's ability to achieve its objectives, including expense savings, from its transformation and strategic and other initiatives, which include the divestiture of Citi's consumer, small business and middle-market operations in Mexico and other exits and wind-downs, all of which involve significant execution uncertainty and complexity and will result in continued higher expenses and may result in certain losses or other negative financial or strategic impacts; a potential U.S. federal government shutdown and the resulting impacts; continued elevated interest rates and the impacts on macroeconomic conditions, customer and client behavior, as well as Citi's funding costs; potential recessions in the U.S., Europe and other countries; revisions to the Basel III rules, including the recently issued notice of proposed rulemaking, known as the Basel III Endgame, related to regulatory capital requirements; continued elevated levels of inflation and its impacts; potential increased regulatory requirements and costs, such as the FDIC's recently issued notice of proposed rulemaking for a special assessment to recover the uninsured deposit losses from recent bank failures: the various uncertainties and impacts related to or resulting from Russia's war in Ukraine; and the precautionary statements included in this release. These factors also consist of those contained in Citigroup's filings with the U.S. Securities Exchange and Commission, including without limitation the "Risk Factors" section of Citigroup's 2022 Form 10-K. ⁽¹⁾ Preliminary. Citigroup's return on average tangible common equity (RoTCE) is a non-GAAP financial measure. RoTCE represents annualized net income available to common shareholders as a percentage of average tangible common equity (TCE). For the components of the calculation, see Appendix A. See Appendix E for a reconciliation of common equity to tangible common equity.

⁽²⁾ Ratios as of September 30, 2023 are preliminary. Citigroup's Common Equity Tier 1 (CET1) Capital ratio and Supplementary Leverage ratio (SLR) reflect certain deferrals based on the modified regulatory capital transition provision related to the Current Expected Credit Losses (CECL) standard. Excluding these deferrals, Citigroup's CET1 Capital ratio and SLR as of September 30, 2023 would be 13.4% and 6.0%, respectively, on a fully reflected basis. For additional information, see "Capital Resources—Regulatory Capital Treatment—Modified Transition of the Current Expected Credit Losses Methodology" in Citigroup's 2022 Annual Report on Form 10-K. Certain prior period amounts have been revised to conform with enhancements made in the current period.

For the composition of Citigroup's CET1 Capital and ratio, see Appendix C. For the composition of Citigroup's SLR, see Appendix D.

⁽³⁾ Citigroup's payout ratio is the sum of common dividends and common share repurchases divided by net income available to common shareholders. For the components of the calculation, see Appendix A.

⁽⁴⁾ Citigroup's tangible book value per share is a non-GAAP financial measure. See Appendix E for a reconciliation of common equity to tangible common equity and resulting calculation of tangible book value per share.

⁽⁵⁾ Third quarter 2023 results included divestiture-related impacts of approximately \$299 million in earnings before taxes (approximately \$214 million after-tax), recorded in *Legacy Franchises*, which primarily consisted of (i) a \$403 million gain on sale of the Taiwan consumer business, recorded in Other revenue; (ii) \$114 million of aggregate divestiture-related costs primarily related to Mexico and severance costs in Asia exit markets, recorded in Operating expenses; (iii) a \$17 million benefit of divestiture-related credit costs; and (iv) related taxes of \$85 million.

Third quarter 2022 results included divestiture-related impacts of \$519 million in earnings before taxes (\$256 million after-tax), recorded in *Legacy Franchises*, which primarily consisted of (i) a \$616 million gain on sale of the Philippines consumer business, recorded in Other revenue and (ii) \$107 million of aggregate divestiture-related costs primarily related to the gross receipt tax against the Philippines consumer business sale and severance costs in Asia exit markets, recorded in Operating expenses; (iii) a \$12 million benefit of divestiture-related credit costs; and (iv) related taxes of \$263 million.

Results of operations excluding these divestiture-related impacts are non-GAAP financial measures. For a reconciliation to reported results, please refer to Appendix B.

⁽⁶⁾ Credit derivatives are used to economically hedge a portion of the *Corporate Lending* portfolio that includes both accrual loans and loans at fair value. Gain / (loss) on loan hedges includes the mark-to-market on the credit derivatives and the mark-to-market on the loans in the portfolio that are at fair value. In the third quarter 2023, gain / (loss) on loan hedges included \$(47) million related to *Corporate Lending*, compared to \$(56) million in the prior-year period. The fixed premium costs of these hedges are netted against the *Corporate Lending* revenues to reflect the cost of credit protection. Citigroup's results of operations excluding the impact of gain / (loss) on loan hedges are non-GAAP financial measures. For a reconciliation to reported results, please refer to Appendices F and G.

⁽⁷⁾ Investment Banking revenues excluding marks represents reported Investment Banking revenues in each period, excluding the impact of realized and unrealized losses primarily related to loan commitments. Citigroup's results of operations excluding the marks are non-GAAP financial measures. For a reconciliation to reported results, please refer to Appendix H.

Credit derivatives are used to economically hedge a portion of the corporate loan portfolio that includes both accrual loans and loans at fair value. Gain/(loss) on loan hedges includes the mark-to-market on the credit derivatives partially offset by the mark-to-market on the loans in the portfolio that are at fair value. Hedges on accrual loans reflect the mark-to-market on credit derivatives used to economically hedge the corporate loan accrual portfolio. The fixed premium costs of these hedges are netted against the corporate lending revenues to reflect the cost of credit portection. Citigroup's results of operations excluding the impact of gain(loss) on loan hedges are non-GAAP financial measures. Primarily relates to income tax credits related to affordable housing and alternative energy investments as well as tax exempt income from municipal bond investments. (1) (2)

Interest revenue and Net interest income include the taxable equivalent adjustments (based on the U.S. federal statutory tax rate of 21%) of \$46 million for 3Q22, \$13 million for 2Q23 and \$23 million for 3Q23. Citigroup average balances and interest rates include both domestic and international operations. Monthly averages have been used by certain subsidiaries where daily averages are unavailable. Average rate percentage is calculated as annualized interest over average volumes. 3023 is preliminary. Average rolumes of securities borrowed or purchased under agreements to resell and securities loaned or sold under agreements to repurchase are reported net pursuant to FIN 41; the related interest excludes the impact of ASU 2013-01 (Topic 210). Interest expense on Trading account liabilities of ICG is reported as a reduction of Interest revenue. Interest revenue and Interest expense on cash collateral positions are reported in Trading account assets and Trading account liabilities, respectively. Nonperforming loans are included in the average loan balances. Excludes hybrid financial instruments with changes in fair value recorded in Principal transactions revenue. (1)

Corporate loans are placed on non-accrual status based upon a review by Citigroup's risk officers. Corporate non-accrual loans may still be current on interest payments. With limited exceptions, the following practices are applied for consumer loans: consumer loans, excluding credit cards and mortgages, are placed on non-accrual status at 90 days past due, and are charged off at 120 days past due; residential mortgage loans are placed on non-accrual status at 90 days past due and written down to net realizable value at 180 days past due. Consistent with industry conventions, Citigroup generally accrues interest on credit card loans until such loans are charged off, which typically occurs at 180 days contractual delinquency. As such, the non-accrual loan disclosures do not include credit card loans. The balances above represent non-accrual loans within Consumer loans and Corporate loans on the Consolidated Balance Sheet.
 Asia Consumer includes balances for certain EMEA countries for all periods presented.
 Represents the carrying value of all property acquired by foreclosure or other legal proceedings when Citigroup has taken possession of the collateral. Also includes former premises and property for use that is no longer contemplated.

NM Not meaningful. Reclassified to conform to the current period's presentation.
